

Getting prepared together storms happen - why suffer?

Almost every winter, Bainbridge Island experiences a severe storm. Sometimes there are several. These storms often result in the interruption of critical services such as power, water and communications. You can minimize the effect on your family's stress level, health and happiness. All it takes is a little bit of preparation.

- ✓ Begin to assemble an emergency kit
- ✓ Store enough food supplies to be self sufficient for five days
- ✓ Stockpile enough water for five days
- ✓ Keep warm with a safe, non-electric source of heat
- ✓ Complete a Family Emergency Plan
- ✓ Know your child's school plan
- ✓ Plan for any health, pet or life safety needs
